

Preseason training, Idre Fjäll, Sweden

Most snow safe place in the Nordics.

Sensational and unique training opportunities

At Idre Fjäll we are taking snow matters seriously! We are blessed with a geographical location creating a unique micro climate making us the most snow safe region in the Nordics. To lever this advantage we power up saving more snow than anybody else and start our “snow factory”, a snow production machine that can make snow even when the temperature is above zero, to open the season for cross-country skiing as early as October 17! Thanks to our professional and experienced staff, we offer well-prepared and challenging ski tracks for both skating and classical, including a biathlon stadium.

Training camp - more than just skiing

Idre Fjäll offers a variety of comfortable accommodation in all sizes and at walking distance to cross-country tracks, biathlon stadium and restaurants serving well-balanced menus for athletes. All to ensure that you will be rested and full of energy for your training session. If you prefer to prepare your own meals you find your groceries in our well-assorted supermarket. Our Activity Centre, with indoor pool, gym and bowling provides further opportunities for training and recovery.

*Idre Fjäll is situated 160 km from Mora (train from Stockholm)
460 km from Stockholm-Arlanda airport.*
