

Fluorinated products EU regulation compliancy information

The following Rex fluorinated products are fully EU 2020 regulations compliant and made with PFOA-free raw materials:

All **HF, RCF and LF** glide waxes in their solid and liquid versions.

Rex Glide Cleaner and all Rex grip waxes and klisterer are compliant.

All fluorinated powders with a green "Future Fluor" label on them:

TK-50, TK-245, TK-29, TK-820, "77", "83", TK-73 block and powder, Hydrex 2

CAUTION: Products that have EU 2020 regulations compliant raw materials, but early production batches may still may contain traces of PFOA due to being made on the same production line as their non-compliant predecessors:

Hydrex 2, TK-73 Powder, TK-73 block

Non-compliant products:

Sapporo, Ruka, SLC, Oslo, "342", "63", Nagano, TK-72 block, TK-74 block, TK-125 block, TK-244 powder and block, Hydrex version 1, powders "98", "96" and all old test products with self made labels
